# Letter of Introduction

It is with great pleasure and pride we present to you our company profile. Herein you will find detailed information regarding our 20-year history, the products we offer, our staff, and reviews of major projects we have successfully executed.

We have been in the business of mild and stainless steel fabrication, as well as metallic coating for over two decades. The experience we have accumulated over the years, coupled with our competitive pricing and our commitment to delivering all projects within a given timeframe ensure our leadership position in the market.

For all inquiries, please do not hesitate to contact us, or drop-in at our office. All inquiries will be responded to in a prompt and tailored manner.

We look forward to serving you and thank you in advance for putting your trust in us. Sincerely yours,

Delta Metallic Construction Factory  
General Manager

# About Delta Metallic

**Delta Metallic Construction Factory L.L.C (DMCF)**, one of the leading metallic fabrication and coating companies in the U.A.E, was established in 1993. DMCF caters to the industrial services sector, providing steel projects, steel decoration and steel finishing.

Today, DMCF is considered as one of the most important and strategic companies in the UAE in the field of electro-plating. We are able to offer our customers a wide range of finishes and colors - like gold, silver, brass, copper, and royal antique finish – which are normally imported from countries like Germany and the U.S.

All our products, services, and the projects we undertake are controlled and monitored by a highly qualified and experienced management team, technical staff, fabricators, turners, welders, electro-platters, painters, polishers and support personnel, in order to carry out a wide range of steel works at reasonable and competitive prices.

# Vision & Mission

## Vision

To be a benchmark of quality in Metals industry and to make Delta Metallic a brand name synonymous to architectural and industrial metal products globally.

## Mission

To complement and support the ever-growing projects for Steel and stainless steel architecture and design internationally, with special emphasis on the national needs. To continuously invest in infrastructure and technical expertise and be a leader in the industry creating new standards of quality and service to enhance overall growth. We want our customers and employees to be satisfied.

# Products & Services

“Next Level of Metallic Finish and Fabrication”

## **Steel Construction**

- a. all kinds of steel structural work
- b. building material items such as: steel brackets, channels, dividing strips and all other metal items
- c. steel gratings and fences

## **Architectural Metal Works**

- a. stainless steel and all metal cladding work
- b. handrails and staircases
- c. canopies

## **Metal Decoration Projects**

- a. hotels, showrooms, offices metal requirements and all internal metal work
- b. all kinds of metal coating, such as: electroplating, wet coating, and powder coating.
- c. Interior and Exterior Exhibition Stands

**All custom and special metallic work**

**Glass and Stainless steel fit out works and glass partitions**

# Safety Management

**Delta Metallic Construction Factory L.L.C** has a comprehensive health and safety management system in place to ensure the well-being of all our employees. With regards to occupational health, our corporate policy promotes a work place that protects the health of **DMCF** employees, sub-contractors, and the surrounding community. The policy emphasizes prevention, education, voluntary participation, personal responsibility, and cost effectiveness.

The **DMCF** health and safety management system relies on the implementation of the **DMCF** health and safety policies. These are collections of policies and procedures outlining various safety topics that include the orientation of new employees, the reporting requirements on site.

Health and wellbeing outside the workplace is also an area that **DMCF** addresses, as we understand the problems it may result in, related but not limited to absenteeism. As a matter of policy therefore, **DMCF** provides its personnel with various kinds of assistance, such as informational or medical insurance plans, whilst empowering employees to take charge of their personal health.

Line management is responsible for the implementation of health and safety management system, with the support of the personnel department and the assistance of medical professionals as needed. This health and safety management system takes local conditions into account and complies with the health laws and regulations applicable in the UAE.

# Quality Assurance

## Delta Metallic Quality Policy Statement

“ The company upholds and is dedicated to a quality policy that will ensure that all products and services fully meet customer requirements in a timely manner. The goal of the company is to consistently achieve the highest levels of customer satisfaction at all times.”

# Quality Assurance

The commitment towards supporting managerial and business operational systems is essential to realizing the quality policy. We believe in the concept of client and supplier working together seamlessly and enjoyably, as we continually strive for improvements in quality of our service. The quality policy is based on 3 fundamental principles.

- Ensuring that we fully identify and conform to the needs of our customers.
- Looking at our service provision processes, identifying the potential for errors, and taking the necessary action to eliminate them.
- Everyone understanding how to do their job and doing it right the first time round.

To ensure that the policy is successfully implemented, staff will be responsible for identifying customer requirements, and ensuring that the correct procedures are followed to meet those requirements.

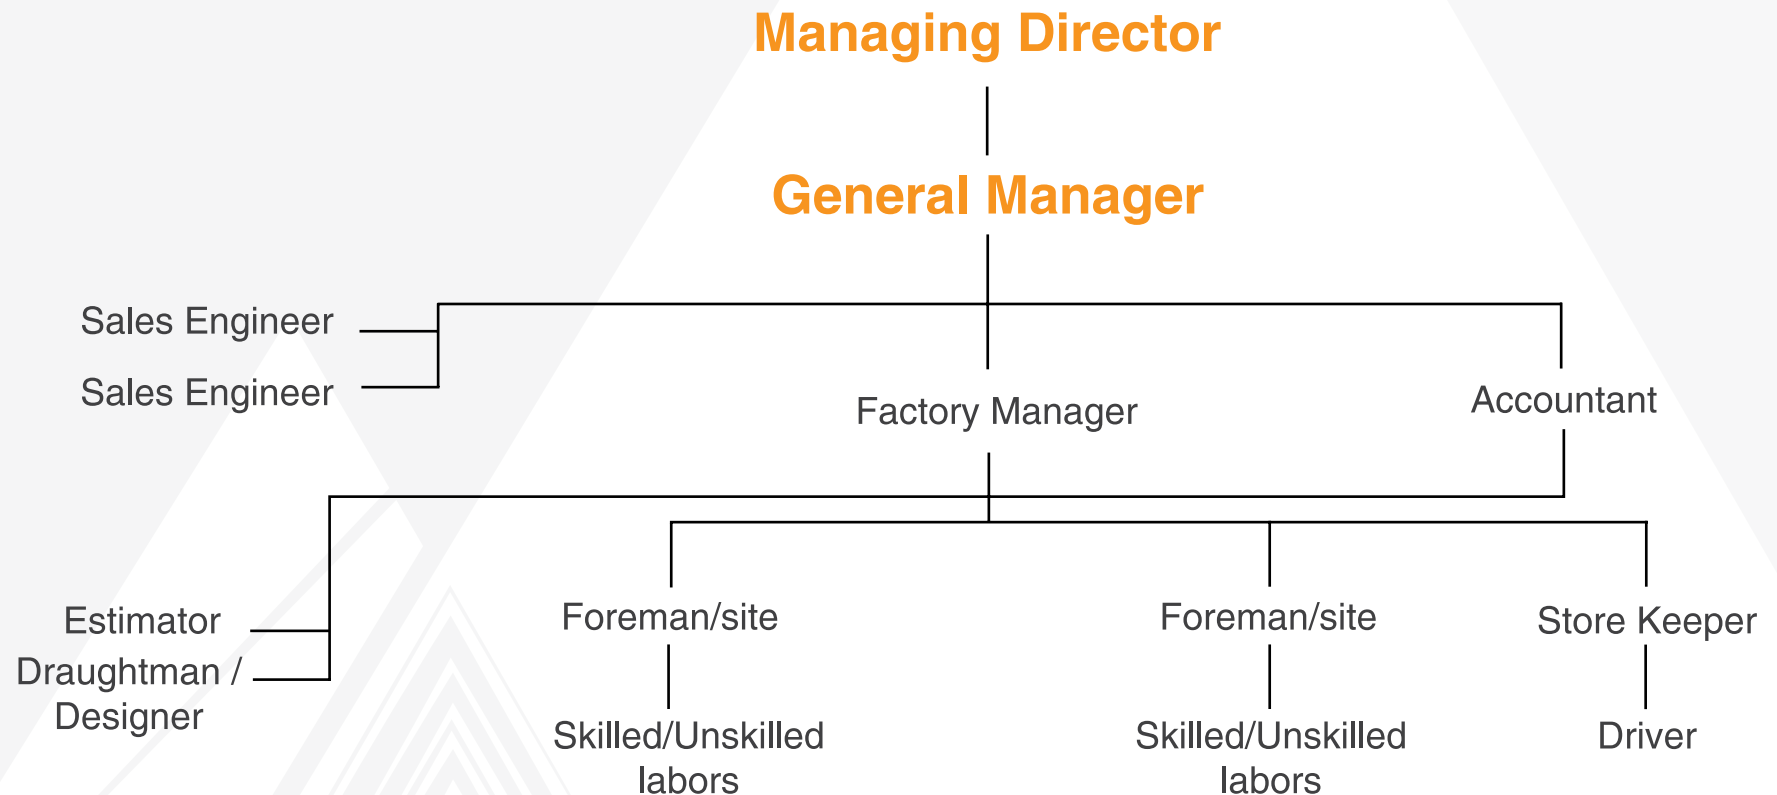

Objectives needed to ensure that the requirements of this policy are met and that continual improvements are maintained in line with the spirit of the policy, will be set, determined and monitored at Management Review.

The quality policy principles and objectives will be communicated and available to staff at all times. Training will be an integral part of the strategy to achieve the objectives.

Within this Policy we are committed to operating our Company under the disciplines planned and developed jointly with our other management functions. We are all committed to operating continuously to this standard and we will maintain the necessary Quality Approvals consistent with our customer requirements.

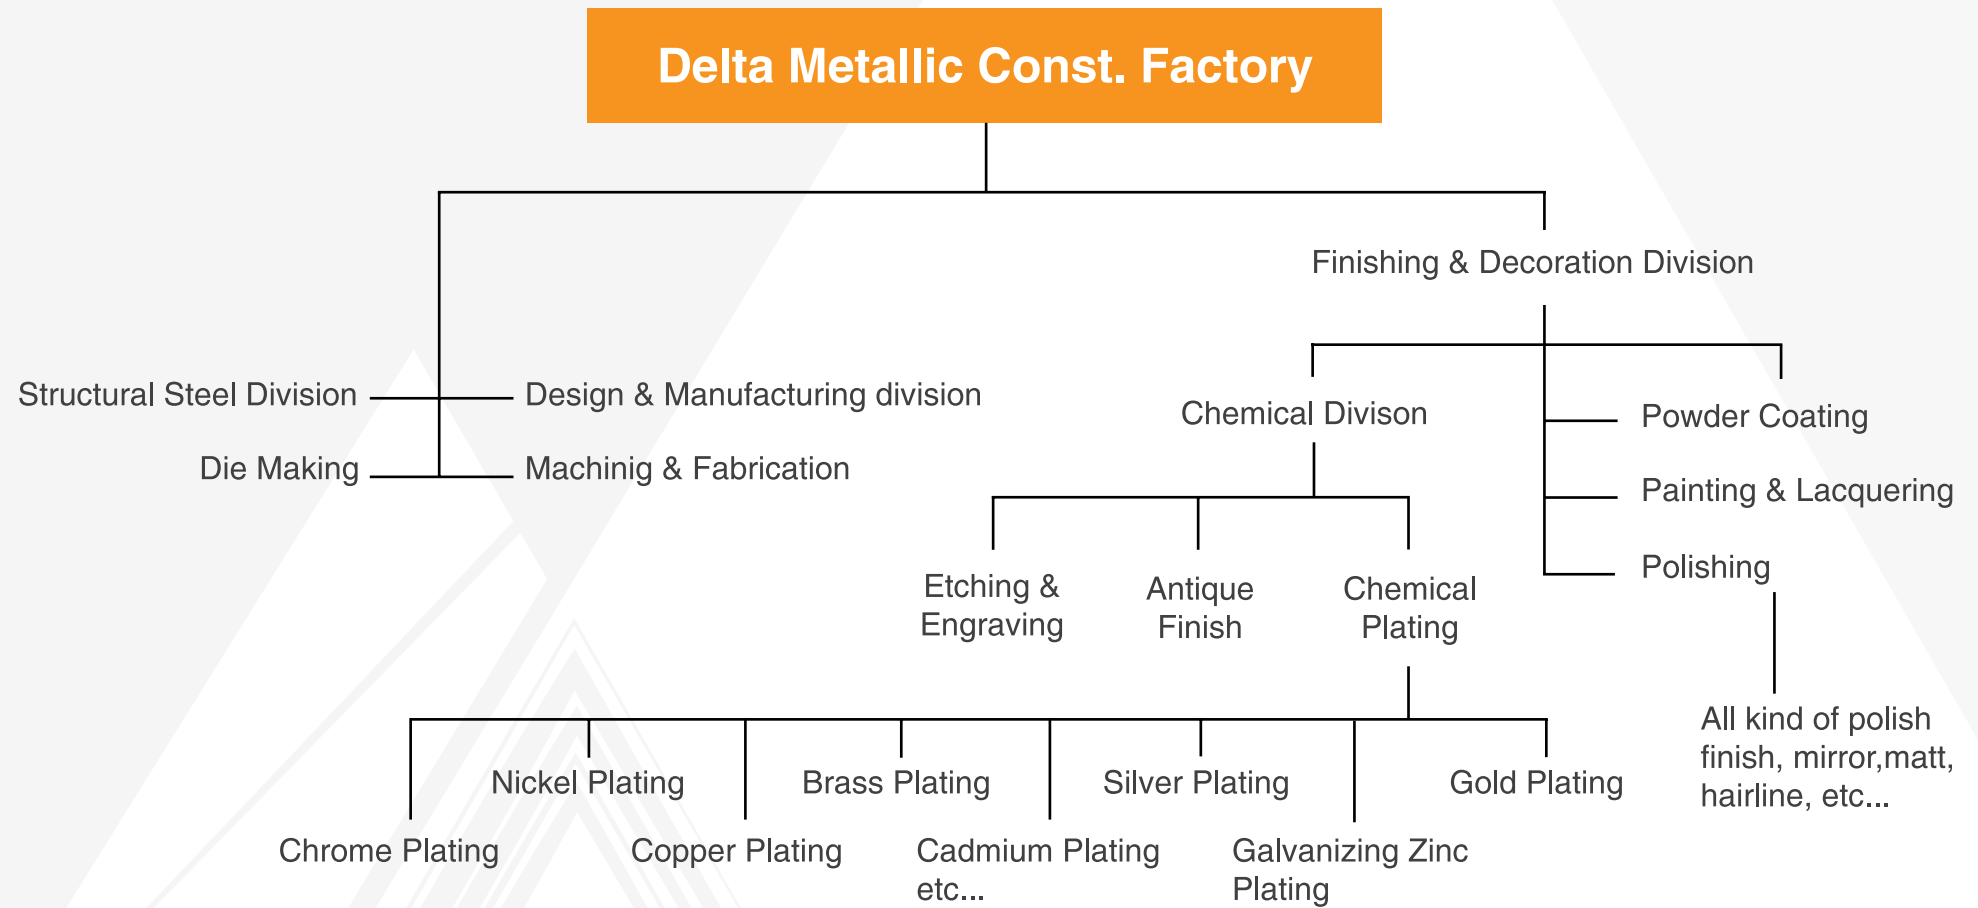

Our Company will constantly review and improve on our services to ensure tasks are completed in the most cost-effective and timely manner for the benefit of all our customers. We shall ensure that all our personnel understand and fully implement our corporate policies and objectives and are able to perform their duties effectively through an ongoing training and development program.

RE: LETTER of APPRECIATION for PROJECTS

Dear Sir:

Head Quarter Facilities Supply LLC wishes to extend its sincere gratitude and appreciation with utmost recognition of your effort and work regarding the premium quality standards provided by your company.

Your loan contributes to the fullest extent and meets the schedule as agreed upon. The planning, execution and completion method were remarkable and contributed immensely to achieving the required premium standards and outcome that left our stakeholders with satisfaction and appreciation from your team.

Wishing you all the success and certainly looking forward working with Delta Metallic in future projects.

Yours Faithfully

Attention: **Mr. Loay Ghannam**  
General Manager

Project: **Dubai International Airport Expansion (Phase III)  
SP-070-CONCOURSE - C, B and TERMINAL 1 (BHS HALLS C & D) IMPROVEMENT  
WORKS**

Subject: **Subcontractor Approval Request**

Dear Mr. Loay,

With reference to the above mentioned subject and project, please find the attached herewith following commented submittal:

SN	REF	SUBJECT	Code
1)	SCA-005 Rev.00	Lab for Steel Works & None-Structural Metal Works at DDF	2
2)	SCA-003 Rev.00	Metallic Works Fabrication and Installation	2

Accordingly, you are requested to strictly adhere to all of the Engineer's comments as attached herewith so as to receive the needful **Code 1 - Work may proceed "Approved"** status soonest time possible.

This is for your information and further necessary action.

With Regards,  
For Al Shafar General Contracting Co.

Ramy Mousa  
Project Manager

The background of the entire image is a photograph of numerous long, cylindrical metal pipes or tubes stacked in rows. The pipes are arranged in a way that creates a strong sense of perspective, with lines converging towards the top of the frame. The lighting is somewhat dim, and the overall color palette is muted, with various shades of grey, blue, and brown. The pipes appear to be made of a heavy material, possibly steel or aluminum, and some show signs of weathering or rust.
